

Emuldef 100

Silicone Defoamer

Product Description

Emuldef 100 is a 100% PDMS based antifoam with non-ionic surfactants, useful for defoaming aqueous and non-aqueous systems.

Emuldef 100 is concentrated antifoam providing excellent foam destroying and control.

Key Performance

- Excellent foam control
- Effective at very low concentrations
- Waste water treatment

Applications

- Carpet Cleaning
- Pesticide/herbicide formulations
- Chemical Distillations
- Industrial

Typical Physical Properties

| Property | : | Value |
|------------------------|---|----------------|
| Appearance | : | Liquid - Paste |
| Color | : | Yellow – Amber |
| Active content | : | 99-100% |
| Emulsifier Type | : | Nonionic |
| Density | : | 1.003 g/mL |
| Solubility/qualitative | : | Insoluble |

Instructions for use

The amount of antifoam required will be dependent upon the application; however it is recommended that evaluations begin at 1 ppm of active silicone.

Prior to addition to the foaming solution.

Not for injection into humans.
